

# Hydroponic

## Why hydroponic?

The demand for hydroponically grown products is increasing fast. All over the world growers and consumers are more and more interested in this way of growing vegetables, especially leafy products and herbs. Enza Zaden is closely involved in the development of varieties that are suitable for this innovative, environmentally friendly method.

## Fairly

Fairly is a greenhouse Butterhead variety suitable for hydroponic and for the long day season. It is fast growing and heads have excellent weight. It has a closed, flat base making it an easy variety to clean at harvest. This variety has a large frame, fine ribs and a fresh, medium green color.

**Resistances:** HR: BI:16-34,36EU/1-8US/Nr:0/TBSV

Descriptions, recommendations and illustrations included correspond as closely as possible to tests and practical experience. This information is provided to assist professional growers and users; however, variable local conditions must be taken into account. Under no circumstances shall Enza Zaden accept liability based on such information for deviating results in the cultivated product. The purchaser is responsible for determining whether the items are suitable for the intended cultivation type and location.
