ENZA ZADEN

Crosstrek (E03D.1051) NEW

Crosstrek is a medium to fast growing variety for transition period.

It features good leaf texture, slightly savoy leaves, round oval point shape, a medium green colour, and its stems are medium to short.

Resistances: HR: Pfs:1-17

Acadia (E03D.0886)

Acadia is a dark green, semi-savoyed spinach with good texture for Babyleaf harvest.

This slow growing variety is recommended for main season production, with excellent field holding capacity and superior shelf-life.

Resistances: HR: Pfs:1-13,15,16

Tundra (E03D.0930)

Tundra is a dark green, semi-savoyed spinach with excellent texture for Babyleaf production.

This slow growing variety is recommended for main season production and is an excellent complement to Acadia. This variety has shown good field tolerance for Pythium.

Resistances: HR: Pfs:1-13,15,16
